- Timeline
- The Future of Mac OS X Aqua port

What does Aqua version mean

- OpenOffice.org runs natively on Mac OS X
- Easy installation: just a few clics
- No more X11
- Mac OS X Aqua Look and Feel
- ... and more

Install it

- What does Aqua version mean
- **Mac OS X Aqua Look and Feel**
- Available Architectures

Mac OS X Aqua Look ...

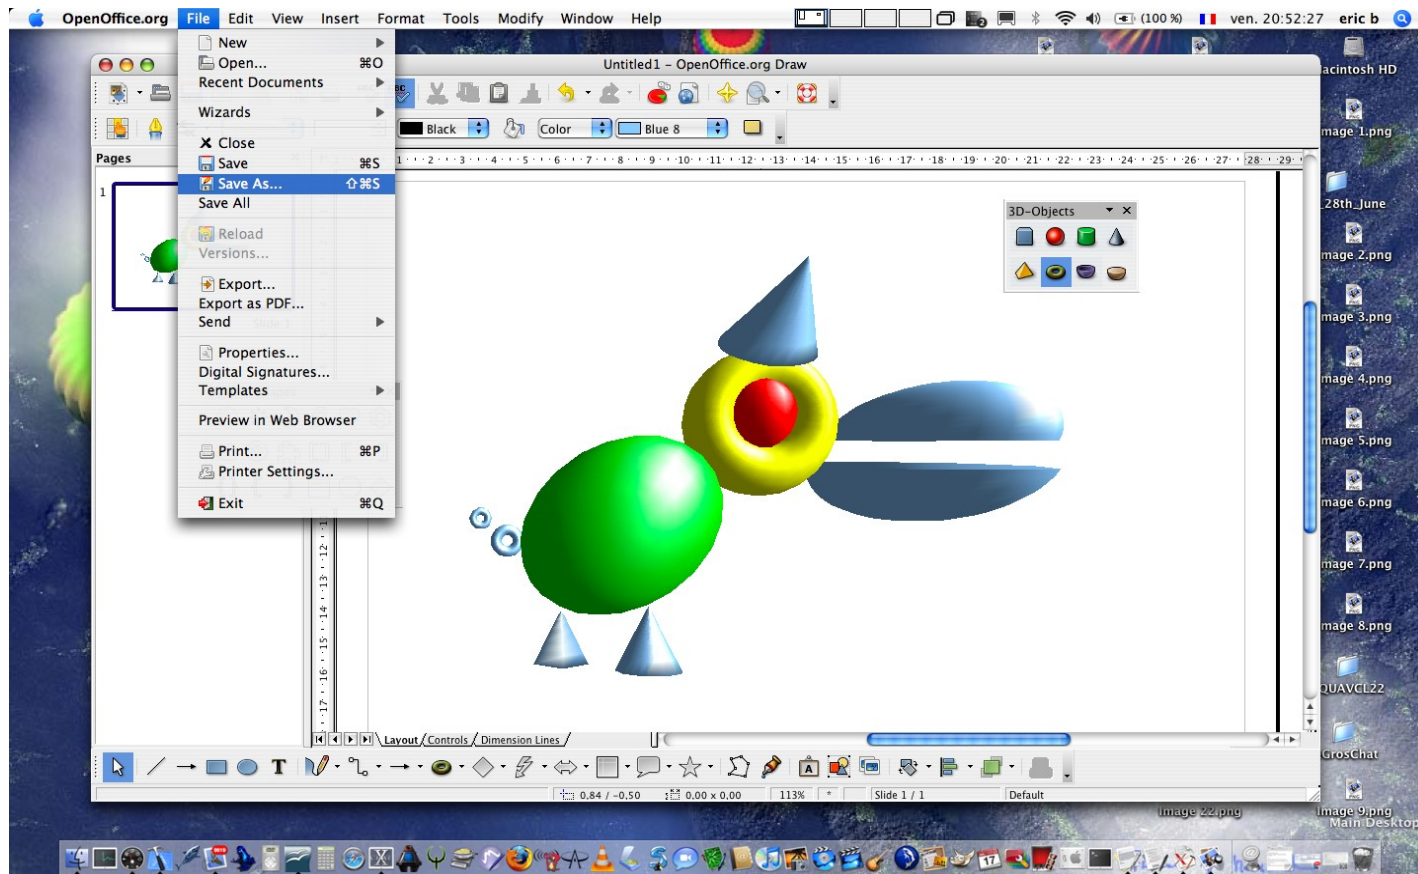

- Aqua Look :
- Aqua windows
- No more menu in the windows
- Aqua buttons and controls

Run it ...

... and Mac OS X Feel

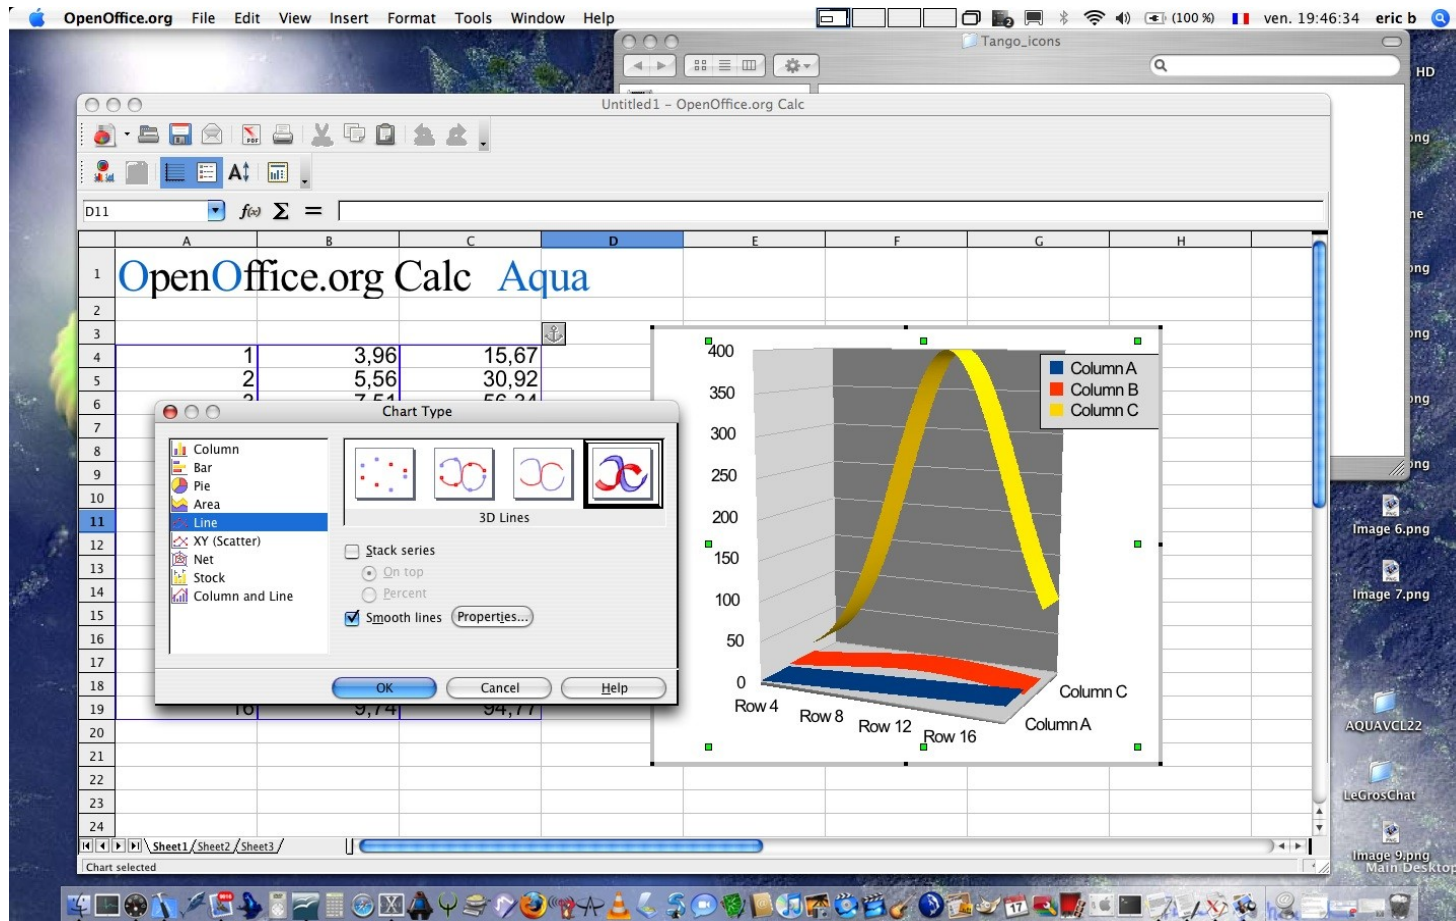

- Better Finder integration
- Uses native File Picker
- Uses Mac OS X shortcuts
- Copy paste
- Apple System fonts integration

Draw

... and more

- Spotlight plugin included
- Mac OS X spellchecker included
- Mac OS X Address book included

Calc ...

- Mac OS X Aqua Look and Feel
- Available Architectures
- **Baseline**
- Timeline
- The Future of Mac OS X Aqua port

Baseline

Needs Mac OS X 10.4 aka Tiger

Works already on Leopard beta

(aka Mac OS 10.5)

- **Timeline**
- The Future of Mac OS X Aqua port

Timeline

Regular development snapshots already available:

<http://porting.openoffice.org/mac/download/aqua.html>

Once all other archs will reach 3.0 status : beta will be available

Scheduled for OpenOffice.org 3.0 (early 2008)

Add missing features

- Drag and drop (very soon, work in progress)
- Native print dialog box
- QuickTime player implementation
- use Apple Security API (encryption,...etc)

Cocoa Migration

- Already started (and works !)
- create a real Mac application from resource files turned into .nibs
- antialiasing and Mac OS X port
- new iconset: provide revamped icons with a more familiar Mac look

Thanks to ..

Universitat de Barcelona, and SoftCatala

The Community : nothing would be possible without
OpenOffice.org community support.

Mac porters Team : Currently counting between 10 and 20
people including Developers, Builders, QA testers, Advanced
users

Cusoon (<http://www.cusoo.org>) , Sun Microsystems ,
unnamed on unnamed behalf, Ben Bois (image at last page)

my wife, for her infinite patience with me :)

Don't forget

Yes, don't forget that ...

WE NEED YOU
